Frontend Development in HTML, CSS and JavaScript

Udemy

Jun - Dec, 2020

Dynamic Frontend Developer with 5+ years of experience building scalable web and mobile apps using React, Next.js, and React Native. Skilled in crafting high-quality UIs, collaborating cross-functionally, and optimizing performance through clean code and seamless backend integration.

WORK EXPERIENCE

VeendHQ

August 2022 - Present

Lagos State, Nigeria

🔗 [VeendHQ](#)

- Developed and maintained responsive, high-performance web applications using React.js, Next.js, and Chakra UI with Typescript.
- Built reusable UI components to enhance design consistency and streamline development workflows.
- Contributed to scalable frontend architecture, focusing on performance optimization and maintainability.
- Collaborated cross-functionally with UI/UX designers and backend engineers to deliver user-centric and scalable features.
- Integrated RESTful APIs, optimizing data fetching and rendering for improved application responsiveness and SEO.

US ProTech

June 2022 - September 2022

Frontend Developer

Las Vegas, Nevada, United States

- Collaborated with cross-functional team members to rebuild and revamp Anamo Inc.'s product (Version 2.0).
- Contributed to the successful launch by fostering team synergy and collective problem-solving.
- Played a key role in the rebuild and redesign of Anamo Inc.'s flagship product (v2.0), improving usability and performance.
- Worked closely with product managers, designers, and engineers to ensure a successful and timely release.

Sanwo

July 2021 - Present

Frontend Developer

Ibadan, Oyo, Nigeria

🔗 [Sanwo](#)

- Specialized in frontend development for the Sanwo Escrow service system, focusing on building intuitive and responsive user interfaces.
- Contributed to the development of UI components across three core products: Sanwo Classic, Sanwo Express, and Sanwo Travels.
- Developed scalable and responsive frontend interfaces for the Sanwo Escrow platform, improving user engagement and usability.

EDUCATION

University of Ibadan

January 2018 - April 2022

BEd. in Mathematics

The Polytechnic, Ibadan

October 2015 - August 2017

National Diploma (ND) in Computer Science

PROJECTS

Membersstack

🔗 [View](#)

Membersstack is a membership management and all-in-one tool that lets you collect membership dues, payment, manage members of your organisation, create campaigns, events and more.

Workspace Manager

🔗 [View](#)

Workspace Manager is a platform that provides software and hardware tools to co-working spaces, hotels, lounges & Cafes to help manage, market, and monetize their spaces as Virtual Offices and co-working spaces.

MTIS Learn

🔗 [View](#)

MTIS Learn is a Learning Management System (LMS) for students of Macdonald Trevan International Schools, providing access to learning resources, assessments, and progress tracking, while enabling parents to monitor their child's academic performance and school activities.
